Years Typical Duration Range

INVESTMENT STRATEGY

The Strategy is an actively managed diversified portfolio of municipal bonds with an average maturity of 3 to 7 years and average duration range of 4.5 to 5.5 years. All bonds are investment grade at time of purchase. The Strategy applies a relative value framework, focusing on fundamentals and valuations to identify inefficiencies in the market. Team members are responsible for credit research, portfolio construction, trading, and risk oversight and have the flexibility to source ideas across sector, geography, and issuer. The strategy maintains exposure across the maturity spectrum in order to manage duration, hedge against interest rate fluctuations, and limit taxable events.

PORTFOLIO MANAGERS

David Ashley, CFA

Began with firm in 2011.

Industry experience since 2008.

Eve Lando, JD

Began with firm in 2019.

Industry experience since 2001.

Craig Mauermann

Began with firm in 2021.

Industry experience since 1993.

Supported by the entire Thornburg investment team.

INVESTMENT RESULTS

ANNUALIZED RETURNS (%)

CALENDAR YEAR RETURNS (%)

	2024	2023	2022	2021	2020	2019	2018	2017	2016	2015
Composite (Gross)	2.11	6.10	-5.57	1.57	4.65	6.65	1.47	4.44	0.48	3.03
Composite (Net)	1.73	5.68	-5.94	1.17	4.24	6.21	1.06	4.00	0.04	2.58
ICE BofA 3-15 Year U.S. Municipal Securities Index	0.99	5.41	-6.64	0.94	4.96	7.01	1.45	4.64	-0.06	3.16
Excess Return (Gross)	1.12	0.69	1.07	0.63	-0.31	-0.36	0.02	-0.20	0.54	-0.13

In US\$ terms. **Returns may increase or decrease as a result of currency fluctuations.** Periods less than one year are not annualized.

Performance data for the Intermediate Term Municipal Strategy is from the Intermediate Term Municipal Composite, inception date of 1 November 1991. The Intermediate Term Municipal Composite includes all non-wrap discretionary accounts invested in the Intermediate Term Municipal Strategy. Returns are calculated using a time-weighted and asset-weighted calculation. Returns reflect the reinvestment of income and capital gains. Periods less than one year are not annualized. Individual account performance will vary. The performance data quoted represents past performance; it does not guarantee future results. Gross of fee returns are net of transaction costs. Net of fee returns are net of transaction costs and investment advisory fees. For periods prior to 2011, net returns for some accounts in the composite also reflect the deduction of administrative expenses. Thornburg Investment Management Inc.'s fee schedule is detailed in Part 2A of its ADV brochure. Performance results of the firm's clients will be reduced by the firm's management fees. For example, an account with a compounded annual total return of 10% would have increased by 159% over ten years. Assuming an annual management fee of 0.75%, this increase would be 142%.

STRATEGY PROFILE

BENCHMARK

ICE BofA 3-15 Years U.S. Municipal Securities Index

CREDIT QUALITY RATINGS (%)†

† A bond credit rating assesses the financial ability of a debt issuer to make timely payments of principal and interest. Ratings of AAA (the highest), AA, A, and BBB are investment grade quality. Ratings of BB, B, CCC, CC, C and D (the lowest) are considered below investment grade, speculative grade, or junk bonds. Credit quality ratings use the highest rating available from either S&P Global Ratings or Moody's Investors Service. Where neither rating is available, we have used ratings from other nationally recognized statistical rating organizations (NRSROs). "NR"= Not Rated.

MATURITY BREAKDOWN (%)

Thornburg is a global investment firm delivering on strategy for institutions, financial professionals and investors worldwide. The privately held firm, founded in 1982, is an active, high-conviction manager of fixed income, equities, multi-asset solutions and sustainable investments with \$46.6** billion in total assets across mutual funds, closed-end funds, institutional strategies, managed accounts, and UCITS.

IMPORTANT INFORMATION

The performance data quoted represents past performance; it does not guarantee future results.

Unless otherwise noted, all data, charts, tables and graphs is Thornburg Investment Management, Inc. as of 31 March 2025.

Investments in the Strategy carry risks, including possible loss of principal. Carefully consider the Strategy's investment objectives, risks, and expenses before investing. There is no guarantee that the portfolio will meet its investment objectives.

The views expressed are subject to change and do not necessarily reflect the views of Thornburg Investment Management, Inc. This information should not be relied upon as a recommendation or investment advice and is not intended to predict the performance of any investment or market.

The information provided in this report should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in an account's portfolio at the time you receive this report or that securities sold have not been repurchased. The securities discussed may not represent an account's entire portfolio and in the aggregate may represent only a small percentage of an account's portfolio holdings. It should not be assumed that any of the securities transactions or holdings discussed were or will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein.

Portfolio holdings and characteristics shown herein are from a representative account managed within the investment composite. The representative account is selected based on account characteristics that Thornburg believes accurately represent the investment strategy as a whole. Should these characteristics change materially, Thornburg may select a different representative account. Holdings may change daily and may vary among accounts, which may contribute to different investment results. The representative account information is supplemental to the strategy's composite and GIPS compliant presentation.

Diversification does not assure or guarantee better performance and cannot eliminate the risk of investment losses. Portfolio characteristics are derived using currently available data from independent research resources that are believed to be accurate. Portfolio attributes can and do vary. Portfolios invested in a limited number of holdings may expose an investor to greater volatility. There is no guarantee that the Strategy will meet its investment objectives or expectations. Cash may also include cash equivalents and currency forwards.

This material may contain "forward-looking statements" such as prospects or expectations that are based on Thornburg's views and assumptions and are subject to known or unknown risks and uncertainties. Actual events or results or the actual performance of a product or service may differ significantly from those expressed or implied in such forward-looking statements. No reliance should be placed on forward-looking statements.

Weighted Average Coupon is a weighted average of the underlying coupon interest rates of mortgage loans or other loans backing asset-backed securities or mortgage-backed securities, as of the issue date, using the balance of each mortgage as the weighting factor.

Average price is the mean price of an asset or security observed over some period of time. It is calculated by finding the simple arithmetic average of closing prices over a specified time period.

Average Effective Maturity - Average length of time until fixed income securities held by a fund reach maturity and are repaid.

Effective Duration - A bond's sensitivity to interest rates, incorporating the embedded option features, such as call provisions. Bonds with longer durations experience greater price volatility than bonds with shorter durations.

Average credit quality is a weighted average of all credit ratings in the portfolio. The average is calculated by Thornburg Investment Management, Inc. using NRSRO ratings. Unrated securities are assigned a value below C and above D. Cash and U.S.-backed securities are given a value equivalent to AAA.

The ICE BofA 3-15 Year U.S. Municipal Securities Index (ICE BofA 3-15 Yr US Muni) is a subset of the ICE BofA U.S. Municipal Securities Index including all securities with a remaining term to final maturity greater than or equal to three years and less than 15 years.

Portfolio construction will have significant differences from that of a benchmark index in terms of security holdings, industry weightings, asset allocations and number of positions held, all of which may contribute to performance, characteristics and volatility differences. The index shown is unmanaged, reflect total returns and assume the reinvestment of all income in U.S. dollars. It does not reflect any management fees or brokerage expenses associated with a portfolio's returns. Returns for an actual portfolio may differ from those of an index due to (among other things) differences in timing and the amount invested and fees and expenses. Investors may not make direct investments into any index.

1. Thornburg Investment Management, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Thornburg Investment Management, Inc. has been independently verified for the periods 1 July 1998 through 31 December 2023. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Intermediate Term Municipal Composite has had a performance examination for the periods 1 January 2008 through 31 December 2023. The verification and performance examination reports are available upon request.
2. Thornburg Investment Management, Inc. is a privately held investment management company founded in 1982 to provide investment management services to institutional and individual investors. We are a registered investment adviser with the U.S. Securities and Exchange Commission and are based in Santa Fe, New Mexico.
3. Valuations are computed and performance is reported in United States dollars.
4. The three-year annualized ex-post standard deviation measures the variability of the composite gross returns and the benchmark returns over the preceding 36-month period. Internal dispersion is calculated using the equal-weighted standard deviation of annual gross returns of those accounts included in the composite for the entire year.
5. The performance data quoted represents past performance; it does not guarantee future results.
6. The Intermediate Term Municipal Composite includes all discretionary accounts invested in the Intermediate Term Municipal Strategy that are not part of a broker-sponsored or wrap program. The strategy seeks to obtain as high a level of current income exempt from regular federal individual income tax as is consistent, in the view of Thornburg, with preservation of principal. A secondary objective of the strategy is to reduce expected fluctuations in the portfolio's value compared to long-term bond portfolios. The strategy is a laddered portfolio of municipal bonds with an average maturity of three to ten years. Laddering involves building a portfolio of bonds with staggered maturities so that a portion of the portfolio matures each year; cash from maturing bonds is typically invested in bonds with longer maturities at the far end of the ladder. The portfolio is invested in municipal securities rated at the time of investment in the four highest categories of ratings services such as S&P, Moody's, or Fitch, or in unrated securities judged by Thornburg to be comparable to securities rated in the four highest ratings categories.
7. The ICE BofA 3-15 Year U.S. Municipal Securities Index is a subset of the ICE BofA U.S. Municipal Securities Index including all securities with a remaining term to final maturity greater than or equal to 3 years and less than 15 years. The performance of any index is not indicative of the performance of any particular investment. Unless otherwise noted, index returns reflect the reinvestment of income dividends and capital gains, if any, but do not reflect fees, brokerage commissions or other expenses of investing.
8. Portfolio construction will have significant differences from that of a benchmark index in terms of security holdings, industry weightings, asset allocations and number of positions held, all of which may contribute to performance, characteristics and volatility differences. Investors may not make direct investments into any index.
9. Returns reflect the reinvestment of income and capital gains. Net returns shown are net of actual investment advisory fees. The standard fee schedule currently in effect is: 0.25% from \$1 million to \$5 million, 0.22% on next 5 million, 0.20% on next \$15 million, 0.18% on next \$25 million, 0.15% over \$50 million. Fees may be negotiated in lieu of the standard fee schedule.
10. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.
11. Inception of the composite was 1 November 1991. The composite was created in January 2001. A list of composite and limited distribution pooled fund descriptions, a list of broad distribution pooled funds, and policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.
12. Thornburg Investment Management, Inc. does not distribute the GIPS Report as a standalone advertisement, so the requirement to include the one-, five-, and ten-year time periods is not applicable for the GIPS report specifically. For any marketing pieces that a GIPS report accompanies, the marketing piece will have the required periods presented in compliance with the SEC Marketing Rule.
