**Changes Relating to the Thornburg Developing World Fund and Thornburg Emerging Markets Managed Account Fund**

Effective April 22, 2025, Di Zhou and Pablo Echavarria were named as co-portfolio managers of Thornburg Developing World Fund and Thornburg Emerging Markets Managed Account Fund (the "Funds"). In addition, effective May 22, 2025, Charles Wilson and Josh Rubin will each conclude their service as co-portfolio managers of the Funds; accordingly, as of May 22, 2025, all references to Mr. Wilson and Mr. Rubin in the Retail Prospectus, Retirement Prospectus, Managed Account Prospectus, and Summary Prospectuses, as applicable, will be deleted.

Effective immediately, the following changes are made to the Retail Prospectus, Retirement Prospectus, Managed Account Prospectus, and Summary Prospectuses:

The disclosure for the Thornburg Developing World Fund under the heading “Portfolio Managers,” appearing on page 32 of the Retail Prospectus, pages 24-25 of the Retirement Prospectus, and page 4 of the Summary Prospectuses is deleted and replaced with the following disclosure:

**Portfolio Managers:**

**Pablo Echavarria, CFA**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2025.

**Josh Rubin**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2021.

**Charles Wilson, PhD**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2015.

**Di Zhou, CFA, FRM**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2025.

The disclosure for the Thornburg Emerging Markets Managed Account Fund under the heading “Portfolio Managers,” appearing on page 6 of the Managed Account Prospectus is deleted and replaced with the following disclosure:

**Portfolio Managers:**

**Pablo Echavarria, CFA**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2025.

**Josh Rubin**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2023.

**Charles Wilson, PhD**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2023.

**Di Zhou, CFA, FRM**, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2025.

The information regarding the portfolio managers contained in the tables under the sub-caption “Fund Portfolio Managers” for the Thornburg Developing World Fund on page 154 of the Retail Prospectus and page 85 of the Retirement Prospectus, and for the Thornburg Emerging Markets Managed Account Fund on page 20 of the Managed Account Prospectus, is updated to add references to Ms. Zhou and Mr. Echavarria.

The following biographical description of Ms. Zhou is added after the information about Charles Wilson on page 157 of the Retail Prospectus and page 87 of the Retirement Prospectus:

**Di Zhou, CFA, FRM**, a managing director of Thornburg, has been a portfolio manager of the Developing World Fund since 2025. Ms. Zhou rejoined Thornburg in 2025 as a portfolio manager. From 2021 to 2025, Ms. Zhou was an investment principal at Cambiar. Prior to Cambiar, she joined Thornburg in 2010 as an equity research analyst, and was promoted to associate portfolio manager in 2014, and then served as portfolio manager from 2015 until 2021. Ms. Zhou began her career as a senior associate at Wilshire Associates, covering growth equity and fixed income manager research. Ms. Zhou holds a BA in business administration from the University of Southern California and an MBA from the University of Chicago Booth School of Business.

The following biographical description of Ms. Zhou is added after the information about Charles Wilson on page 21 of the Managed Account Prospectus:

**Di Zhou, CFA, FRM**, a managing director of Thornburg, has been a portfolio manager of the Emerging Markets Managed Account Fund since 2025. Ms. Zhou rejoined Thornburg in 2025 as a portfolio manager. From 2021 to 2025, Ms. Zhou was an investment principal at Cambiar. Prior to Cambiar, she joined Thornburg in 2010 as an equity research analyst, and was promoted to associate portfolio manager in 2014, and then served as portfolio manager from 2015 until 2021. Ms. Zhou began her career as a senior associate at Wilshire Associates, covering growth equity and fixed income manager research. Ms. Zhou holds a BA in business administration from the University of Southern California and an MBA from the University of Chicago Booth School of Business.

The following biographical description of Mr. Echavarria is added after the information about Brian Burrell on page 156 of the Retail Prospectus and after the information about Matt Burdett on page 86 of the Retirement Prospectus:

**Pablo Echavarria, CFA**, a managing director of Thornburg, has been a portfolio manager of the Developing World Fund since 2025. Mr. Echavarria rejoined Thornburg in 2025 as a portfolio manager. From 2018 to 2025, Mr. Echavarria was a portfolio manager and business analyst at WCM. Earlier in Mr. Echavarria's career, he joined Thornburg in 2014 as an equity research analyst and was promoted to associate portfolio manager in 2015. Mr. Echavarria worked as a global equity analyst at Turner Investment Partners from 2007 to late 2013, where he supported various equity portfolios and was directly responsible for the firm's Latin American financials coverage. Prior to working at Turner, Mr. Echavarria worked as a trading assistant at BlackRock. Mr. Echavarria holds a BA in business administration from Drexel University.

The following biographical description of Mr. Echavarria is added after the information about David Ashley on page 20 of the Managed Account Prospectus:

**Pablo Echavarria, CFA**, a managing director of Thornburg, has been a portfolio manager of the Emerging Markets Managed Account Fund since 2025. Mr. Echavarria rejoined Thornburg in 2025 as a portfolio manager. From 2018 to 2025, Mr. Echavarria was a portfolio manager and business analyst at WCM. Earlier in Mr. Echavarria's career, he joined Thornburg in 2014 as an equity research analyst and was promoted to associate portfolio manager in 2015. Mr. Echavarria worked as a global equity analyst at Turner Investment Partners from 2007 to late 2013, where he supported various equity portfolios and was directly responsible for the firm's Latin American financials coverage. Prior to working at Turner, Mr. Echavarria worked as a trading assistant at BlackRock. Mr. Echavarria holds a BA in business administration from Drexel University.

# Thornburg Developing World Fund

## Summary Prospectus

**FEBRUARY 1, 2025**
**Class R5: THDRX | Class R6: TDWRX**

Before you invest, you may want to review the Fund's Prospectus and Statement of Additional Information (SAI), which contain more information about the Fund and its risks. You can find the Fund's Prospectus, SAI and other information about the Fund online at [www.thornburg.com/download](http://www.thornburg.com/download). You can also get this information at no cost by calling 800.847.0200 or by sending an e-mail request to [info@thornburg.com](mailto:info@thornburg.com). The current Prospectus and SAI, dated February 1, 2025, are incorporated by reference into this Summary Prospectus.

### Investment Goal

The Fund's primary investment goal is long-term capital appreciation.

### Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

#### Shareholder Fees

(fees paid directly from your investment)

	CLASS R5	CLASS R6
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	none	none
Maximum Deferred Sales Charge (Load) (as a percentage of redemption proceeds or original purchase price, whichever is lower)	none	none

#### Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	CLASS R5	CLASS R6
Management Fees	0.95%	0.95%
Distribution and Service (12b-1) Fees	none	none
Other Expenses	1.09%	0.29%
Total Annual Fund Operating Expenses	2.04%	1.24%
Fee Waiver/Expense Reimbursement <sup>(1)</sup>	(1.00)%	(0.30)%
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement	1.04%	0.94%

<sup>(1)</sup> Thornburg Investment Management, Inc. ("Thornburg") has contractually agreed to waive fees and reimburse expenses incurred by the Fund so that actual Class R5 and Class R6 expenses (excluding taxes, interest expenses, acquired fund fees and expenses, brokerage commissions, borrowing costs, expenses relating to short sales, and unusual expenses such as contingency fees or litigation costs) do not exceed 1.04% and 0.94%, respectively. The agreement to waive fees and reimburse expenses may be terminated by the Fund's Trustees at any time, but may not be terminated by Thornburg before February 1, 2026, unless Thornburg ceases to be the investment advisor of the Fund prior to that date. Thornburg may recoup amounts waived or reimbursed during the Fund's fiscal year if actual expenses fall below the expense cap during that same fiscal year.

**Example.** This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year, dividends and distributions are reinvested, and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions (and giving effect to fee waivers and expense reimbursements in the first year), your costs would be:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
Class R5 Shares	\$106	\$543	\$1,006	\$2,289
Class R6 Shares	\$96	\$364	\$652	\$1,474

**Portfolio Turnover.** The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 90.88% of the average value of its portfolio.

### Principal Investment Strategies

Under normal market conditions, the Fund pursues its objective by investing at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities of issuers which Thornburg views as having substantial economic ties to one or more developing countries. Developing countries are considered by Thornburg generally to be those countries which are not included in the MSCI World Index. The material factors that Thornburg considers when determining whether an issuer has substantial economic ties to a developing country include whether the issuer:

- is included in the MSCI Emerging Markets Index;
- is organized or headquartered in a developing country, or maintains most of its assets in one or more such countries;
- has equity securities that are traded principally on a stock exchange of a developing country; or
- derives, or is expected to derive, a majority of its profits, revenues, sales, or income from one or more developing countries.

The Fund may invest in issuers of any size of capitalization, including small companies, and expects that under normal conditions its assets will be invested in issuers domiciled in or tied economically to a variety of different developing countries.

The Fund's policy of investing at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in developing country issuers may be changed by the Fund's Trustees without a shareholder vote upon 60 days' notice to shareholders.

Among the specific factors considered in identifying securities for inclusion in the Fund are domestic and international economic developments, outlooks for securities markets, the supply and demand for equity securities, and analysis of specific issuers. Thornburg typically categorizes the Fund's equity investments in one of the following three categories:

**Basic Value:** Companies generally operating in mature or cyclical industries and which generally exhibit more economic sensitivity and/or higher volatility in earnings and cash flow.

**Consistent Earner:** Companies which generally exhibit predictable growth, profitability, cash flow and/or dividends.

**Emerging Franchise:** Companies with the potential to grow at an above average rate because of a product or service that is establishing a new market and/or taking share from existing participants.

Inclusion of any investment in any of the three described categories represents Thornburg's opinion concerning the characteristics and prospects of the investment. There is no assurance that any company selected for investment will, once categorized in one of the three described investment categories, continue to have the positive characteristics or fulfill the expectations that Thornburg had for the company when it was selected for investment, and any such company may not grow or may decline in earnings and size.

The Fund may sell an investment if Thornburg has identified a better investment opportunity, in response to changes in the conditions or business of the investment's issuer or changes in overall market conditions, if Thornburg has a target price for the investment and that target price has been achieved, or if, in Thornburg's opinion, the investment no longer serves to achieve the Fund's investment goals.

## Principal Investment Risks

An investment in the Fund is not a deposit in any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Accordingly, the loss of money is a risk of investing in the Fund. The value of the Fund's shares varies from day to day and over time, and when you sell your shares they may be worth less than what you paid for them. The following is a summary of the principal risks of investing in the Fund. The risks are presented in alphabetical order to facilitate readability, and their order does not imply that the realization of one risk is more likely to occur or have a greater adverse impact than another risk. The relative significance of each risk below may change over time.

**Credit Risk** – The inability of an issuer to pay principal and interest on its debt obligations when due, or the downgrading of an issuer's debt obligations by ratings agencies, may adversely affect the market's perceptions of the issuer's financial strength and may therefore result in declines in the issuer's stock price.

**Cybersecurity and Operational Risk** – Operational failures, cyber-attacks or other disruptions that affect the Fund's service providers, the Fund's counterparties, other market participants or the issuers of securities held by the Fund may adversely affect the Fund and its shareholders, including by causing losses for the Fund or impairing Fund operations.

**Developing Country Risk** – The risks which may affect investments in foreign issuers (see "Foreign Investment Risk," below) may be more pronounced for investments in developing countries because the economies of those countries are usually less diversified, communications, transportation and economic infrastructures are less developed, and developing countries ordinarily have less established legal, political, business and social frameworks. At times the prices of equity securities of a developing country issuer may be extremely volatile. An issuer domiciled in a developed country may be similarly affected by these developing country risks to the extent that the issuer conducts its business in developing countries.

**Equity Risk** – The value of the Fund's equity investments may fluctuate significantly over time in response to factors affecting individual issuers, particular industries, or the market as a whole. Additionally, common stock ranks below preferred stock and debt securities in claims for dividends and for assets of a company in a liquidation or bankruptcy.

**Foreign Currency Risk** – Fluctuations in currency exchange rates can adversely affect the value of the Fund's foreign investments. Such fluctuations may occur for a number of reasons, including market and economic conditions, or a government's decision to devalue its currency or impose currency controls.

**Foreign Investment Risk** – Investments in securities of foreign issuers may involve risks including adverse fluctuations in currency exchange rates, political instability, confiscations, taxes or restrictions on currency exchange, difficulty in selling foreign investments, and reduced legal protections.

**Liquidity Risk** – Due to a lack of demand in the marketplace or other factors, the Fund may not be able to sell some or all of its investments promptly, or may only be able to sell investments at less than desired prices. This risk may be more pronounced for the Fund's investments in developing countries.

**Management Risk** – The Fund is an actively managed portfolio, and the value of the Fund may be reduced if Thornburg pursues unsuccessful investments or fails to correctly identify risks affecting the broad economy or specific issuers in which the Fund invests.

**Market and Economic Risk** – The value of the Fund's investments may decline and its share value may be reduced due to changes in general economic and market conditions. The value of a security may change in response to developments affecting entire economies, markets or industries, including changes in interest rates, political and legal developments, and general market volatility. These risks may be more pronounced for the Fund's investments in developing countries.

**Redemption Risk** – If a significant percentage of the Fund's shares is owned or controlled by a single shareholder, the Fund is subject to the risk that a redemption by that shareholder of all or a large portion of its shares may require the Fund to sell securities at less than desired prices, and the Fund's remaining shareholders may also incur additional transaction costs or adverse tax consequences from such trading activity.

**Risks Affecting Investments in China** – A significant portion of the Fund's assets may be invested in companies exposed to China. Risks affecting investments in China include a potential downturn in the Chinese economy, reduced liquidity or increased price volatility in the Chinese securities markets as a result of trading suspensions affecting Chinese issuers or other factors, the potential that the Chinese government may expand restrictions on foreign investments or the repatriation of capital, and the implementation of new tariffs or other trade barriers by China or its trading partners. A lack of transparency respecting Chinese companies may also reduce the Fund's ability to conduct diligence respecting those companies' accounting and governance standards, which may in turn reduce the Fund's ability to detect fraudulent practices that may adversely affect the companies' stock prices.

**Risks Affecting Specific Countries or Regions** – If a significant portion of the Fund's assets is invested in issuers that are economically exposed to one country or region, the Fund's share value may be more susceptible to the conditions and developments in that country or region, and potentially more volatile than the share value of a more geographically diversified fund. A specific country or region could also be adversely affected by conditions or developments arising in other countries. For example, the U.S. government could take actions to prohibit or restrict individuals or companies within the U.S. from purchasing or holding the shares of issuers in another country, which may limit the Fund's ability to invest in that country or cause the Fund to have to sell investments in that country at less than desired prices. The nature and degree of the risks affecting a given country or region, and the extent of the Fund's exposure to any such country or region, is expected to vary over time.

**Risks Affecting Specific Issuers** – The value of an equity security may decline in response to developments affecting the specific issuer of the security or obligation, even if the overall industry or economy is unaffected. These developments may include a variety of factors, including but not limited to management issues or other corporate disruption, a decline in revenues or profitability, an increase in costs, or an adverse effect on the issuer's competitive position.

**Small and Mid-Cap Company Risk** – Investments in small-capitalization companies and mid-capitalization companies may involve additional risks, which may be relatively higher with smaller companies. These additional risks may result from limited product lines, more limited access to markets and financial resources, greater vulnerability to competition and changes in markets, lack of management depth, increased volatility in share price, and possible difficulties in valuing or selling these investments.

Additional information about Fund investments, investment strategies and risks of investing in the Fund appears below beginning on page 72 of the Prospectus.

## Past Performance of the Fund

The following information provides some indication of the risks of investing in the Developing World Fund by showing how the Fund's investment results vary from year to year. The bar chart shows how the annual total returns for Class R5 shares have been different in each full year shown. The average annual total return figures compare Class R5 and Class R6 share performance to the MSCI Emerging Markets Net Total Return USD Index, a broad-based securities market index that represents the overall applicable market in which the Fund invests. The index is not actively managed and is not available for direct investment. The bar charts and performance tables assume reinvestment of dividends and distributions. Past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. The performance information shown is as of the calendar year ended December 31, 2024. Updated performance information may be obtained on the Thornburg website at [Thornburg.com](http://Thornburg.com) or by calling 1-800-847-0200.

### Annual Total Returns – Class R5 Shares

	TOTAL RETURNS	QUARTER ENDED
Highest Quarterly Results	21.77%	6/30/2020
Lowest Quarterly Results	-24.75%	3/31/2020

**Average Annual Total Returns**

(periods ended 12-31-24)

<b>CLASS R5 SHARES</b>	<b>1 YEAR</b>	<b>5 YEARS</b>	<b>10 YEARS</b>
Return Before Taxes	5.75%	0.13%	2.83%
Return After Taxes on Distributions	4.55%	-0.43%	2.34%
Return After Taxes on Distributions and Sale of Fund Shares	3.41%	-0.14%	1.98%
MSCI Emerging Markets Net Total Return USD Index (reflects no deduction for fees, expenses, or U.S. taxes)	7.50%	1.70%	3.64%
<b>CLASS R6 SHARES</b>	<b>1 YEAR</b>	<b>5 YEARS</b>	<b>10 YEARS</b>
Return Before Taxes	5.88%	0.23%	2.93%
MSCI Emerging Markets Net Total Return USD Index (reflects no deduction for fees, expenses, or U.S. taxes)	7.50%	1.70%	3.64%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates, and do not reflect state or local income taxes. Actual after-tax returns depend on an investor's own tax situation and may differ from the returns shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. The after-tax returns shown relate only to Class R5 shares, and after-tax returns for other share classes will vary.

**Management**

**Investment Advisor:** Thornburg Investment Management, Inc.

**Portfolio Managers:**

Josh Rubin, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2021.

Charles Wilson, PhD, a managing director of Thornburg, has been one of the persons jointly and primarily responsible for the day-to-day management of the Fund since 2015.

**Purchase and Sale of Fund Shares**

Employer-sponsored retirement plans wishing to make shares of the Fund available to plan participants should contact a financial intermediary authorized to sell shares of the Funds. As a participant in an employer-sponsored retirement plan that makes Fund shares available, you may add shares to your account by contacting your plan administrator. Although the Funds do not currently impose any investment minimums on the purchase of shares through an employer-sponsored retirement plan, the plan itself may establish such minimums. Contact your plan administrator for more information.

Please contact your retirement plan administrator if you wish to sell your shares. Your plan administrator will conduct the transaction for you, or provide you with the means to conduct the transaction yourself.

**Tax Information**

Fund distributions to qualified retirement plan accounts, and transactions in Fund shares by those accounts, are not generally subject to current federal income tax under existing federal law. Please see "Taxes" on page 96 of the Prospectus for additional information. Purchasers are cautioned to seek the advice of their own advisors about the tax consequences of contributions to plan accounts and distributions from plan accounts.

**Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase shares of a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund, its investment advisor and/or its distributor may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
