

SEPTEMBER 30, 2017

Investment Strategy

The Strategy typically invests in a selection of growth stocks that management believes will have growing revenues and earnings. The Strategy may comprise companies of any size, from large, well-established firms to small, emerging growth franchises. Thornburg uses traditional fundamental research to evaluate securities and make buy/sell decisions. The Strategy also may invest in debt securities of any type.

Investment Objective

The Strategy seeks long-term growth of capital. There is no guarantee that the Strategy will meet its objectives.

Portfolio Manager

Greg Dunn

Supported by the entire Thornburg investment team.

Portfolio Baskets[†]

Growth Industry Leaders	33.6%
Consistent Growers	30.2%
Emerging Growth Companies	33.9%
Cash & Cash Equivalents	2.4%

Growth Industry Leaders: often have leadership positions in growing markets. These firms tend to be larger, more established, and have dominant market share.

Consistent Growth Companies: generally exhibit steady earnings and revenue growth, often with subscription or other recurring revenue profiles. These firms tend to buoy the portfolio in weak markets.

Emerging Growth Companies: are often addressing a new market or carving out a niche in an existing market. Companies in this basket tend to be smaller, earlier-stage companies. Successful emerging growth companies are often reclassified as their businesses mature.

Average Annual Total Returns (as of 9/30/17)

	QTD	YTD	1-YR	3-YR	5-YR	10-YR	SINCE INCEPTION (1/1/01)
All Cap Growth Composite (NET)	3.34%	18.75%	15.67%	7.65%	11.78%	5.03%	6.64%
All Cap Growth Composite (GROSS)	3.56%	19.51%	16.66%	8.56%	12.73%	6.12%	7.97%
Russell 3000 Growth Index	5.93%	20.43%	21.87%	12.65%	15.18%	9.03%	5.59%

Returns are annualized for periods greater than one year.

Performance data for the All Cap Growth Strategy is from the All Cap Growth Composite, inception date of January 1, 2001. The composite includes non-wrap discretionary accounts invested in the All Cap Growth Strategy. Returns are calculated using a time-weighted and asset-weighted calculation including reinvestment of dividends and income. Returns are annualized for periods greater than one year. Individual account performance will vary. The performance data quoted represents past performance; it does not guarantee future results. Gross of fee returns are net of transaction costs. Net of fee returns are net of transaction costs and investment advisory fees. For periods prior to 2011, net returns for some accounts in the composite also reflect the deduction of administrative expenses. Thornburg Investment Management Inc.'s fee schedule is detailed in Part 2A of its ADV brochure. Performance results of the firm's clients will be reduced by the firm's management fees. For example, an account with a compounded annual total return of 10% would have increased by 159% over ten years. Assuming an annual management fee of .75%, this increase would be 142%.

Risk Metrics vs. Russell 3000 Growth Index

	3-YR	5-YR	10-YR
Annualized Alpha	-4.24	-2.70	-3.46
Beta	1.07	1.06	1.14

† Portfolio holdings and characteristics shown herein are from a representative account managed within the investment composite. The representative account is selected based on account characteristics that Thornburg believes accurately represent the investment strategy as a whole. Should these characteristics change materially, Thornburg may select a different representative account. Holdings may change daily and may vary among accounts, which may contribute to different investment results. The representative account information is supplemental to the strategy's composite and GIPS compliant presentation.

1. Active Share - A measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index.

Portfolio characteristics are derived using currently available data from independent research resources that are believed to be accurate. Portfolio attributes can and do vary.

The information provided in this report should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in an account's portfolio at the time you receive this report or that securities sold have not been repurchased. The securities discussed may not represent an account's entire portfolio and in the aggregate may represent only a small percentage of an account's portfolio holdings.

It should not be assumed that any of the securities transactions or holdings discussed were or will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein.

Thornburg Investment Management All Cap Growth Composite January 1, 2007 through December 31, 2016

Period	Composite Returns		Index Returns	3-Yr Annualized Standard Deviation*		Dispersion	As of December 31

2007	12.98%	11.38%	11.40%			0.61%	8	3,866	52,970

* 3-Yr annualized standard deviation is not required for annual periods prior to 2011.

N/M - Not meaningful. A statistical measure of internal dispersion for composites with five or fewer accounts (included for the entire year) is not considered meaningful.

- Thornburg Investment Management, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Thornburg Investment Management, Inc. has been independently verified for the period July 1, 1998 through December 31, 2016. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.
- Thornburg Investment Management, Inc. (the "Firm") is an independent investment adviser registered under the Investment Advisers Act of 1940. Registration does not imply a certain level of skill or training. The Firm's clientele consists of mutual funds, commingled funds and taxable and non-taxable separately managed accounts in U.S., non-U.S. and global equity strategies and in U.S. fixed income strategies. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- Valuations are computed and performance is reported in United States dollars.
- The three-year annualized ex-post standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. Internal dispersion is calculated using the equal-weighted standard deviation of annual gross returns of those accounts included in the composite for the entire year.
- The performance data quoted represents past performance; it does not guarantee future results. Returns will fluctuate and current performance may be either lower or higher than data shown.
- The All Cap Growth Composite includes all non-wrap discretionary accounts invested in the All Cap Growth strategy. The strategy seeks long-term growth of capital. The strategy typically invests in a selection of growth stocks that management believes will have growing revenues and earnings. The strategy may comprise companies of any size, from large, well-established firms to small, emerging growth franchises.
- The Russell 3000® Growth Index is an unmanaged index comprised of those Russell 3000® companies with higher price-to-book ratios and higher forecasted growth values. The stocks in this index are also members of either the Russell 1000® Growth or the Russell 2000® Growth indices. The index returns reflect the reinvestment of dividends and other earnings, are net of withholding taxes, and do not include any trading costs, management fees, or other expenses. Benchmark returns are not covered by the report of independent verifiers.
- Portfolio construction will have significant differences from that of a benchmark index in terms of security holdings, industry weightings, asset allocations and number of positions held, all of which may contribute to performance, characteristics and volatility differences. Investors may not make direct investments into any index.
- Returns reflect the reinvestment of income and capital gains. Net returns shown are net of actual investment advisory fees. Prior to January 1, 2011 the net returns for some accounts in the composite reflect the deduction of management fees and other administrative expenses. The standard fee schedule currently in effect is: 0.75% on the first \$25 million, 0.65% on the next \$50 million, negotiable thereafter. Fees may be negotiated in lieu of the standard fee schedule.
- The All Cap Growth Composite has been examined for the period from January 1, 2001 through December 31, 2016. The examination reports are available upon request.
- This composite was created in January 2001. A list of composite descriptions is available upon request.
